Though education is fantastic, keeping on track with the many hours you need to fulfill can be a challenge. Thankfully, there is a fantastic resource available to help you with that. Before we dive into the resource, let's start by outlining what is required of Idaho psychologist in order to renew their license each cycle.

### Licensee Requirements for Idaho Psychologists

Licensed psychologists in Idaho are required to complete 20 hours of continuing education every year in order to renew their license. Of those 20 required hours, four hours (every three years) need to be on ethics, standards of care, or laws related to psychology. Continuing education hours can be earned in-person, online, and through self-study, but there are limits to the number of hours earned outside of live, in-person activities. No more than 10 hours can come from online, non-interactive, activities and no more than six from self-study. Additionally, all activities must be considered approved by the board.
