

Continuing Education Requirements for Virginia Psychologists (And How to Stay on Track)

As a licensed psychologist in the state of Virginia, it is your responsibility to adhere to continuing education requirements every period in order to renew your license. Beyond license renewal being key to you maintaining your practice, continuing education is essential to stay abreast of what is happening in psychology – something your clients will always appreciate you taking seriously. Education is how we all continue to learn and further hone our skills and expertise, so it's certainly something to be celebrated. Though education is fantastic, keeping on track with the many hours you need to fulfill can be a challenge. Thankfully, there is a fantastic resource available to help you with that. Before we dive into the resource, let's start by outlining what is required of Virginia psychologist in order to renew their license.

Licensee Requirements for Virginia Psychologists

Psychologists licensed in Virginia are required to complete 14 hours of continuing education annually in order to renew their license. Proof of completion does not need to be submitted with renewal applications, though, it may be requested if you are selected for one of the board's random audits, so maintaining accurate record is important.

Within the required 14 hours, 1.5 must be on laws, ethics, or regulations in the industry. As an additional requirement, at least 6 of the hours need to be earned in real-time (either in-person or via a live, interactive course). If a licensee earns more than the required 14 hours in a given year, they can carry-over up to seven to the next. As a final note, continuing education is only accepted if it is offered by a board-approved provider, which is specified [here](#).
